MEMORANDUM FOR THE RECORD

7 September 1960

SUBJECT: Cornerstone Box

25X1A9a

1. Mr. [REDACTED] New Building Coordinator for Physical Security Division (x 3091), called regarding the material to go into the cornerstone box. He cited a memorandum of 30 September 1959 from the Historical Curator and an answer on 7 October 1959 from the Director of Security. If the listing of material is the same, the Director of Security's answer still stands; however, if there is any change they would like to review the change.

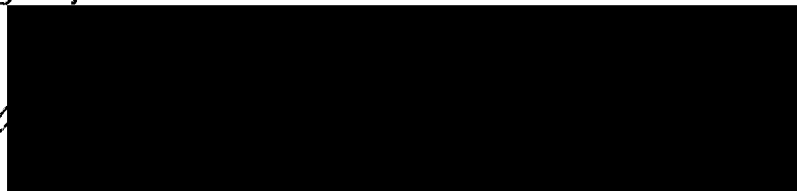

25X1A9a

2. I told Mr. [REDACTED] that our recent inquiries, which apparently occasioned his call, were primarily relative to the physical security of the box itself after the actual cornerstone box was laid, but before the building was occupied. I then advised him that I had talked to [REDACTED] and that he was looking into the matter on the site in order that he could advise Col. Edwards as soon as possible as to the security aspects in the placement of the box. I also gave him some indication as to the urgency of the matter.
